WHY CHOOSE CAN-AM ACCESSORIES?

QUALITY & SEAMLESS INTEGRATION.

It's that simple. Our commitment to innovation, high-quality materials and seamless integration means we know exactly what it takes to the accessories for our industry-leading ATVs and Side-by-Side vehicles. Accessories that fit in, fit right, look great, are made to last, and are the only ones that can transform any Can-Am into your Can-Am.

TRUST & RELIABILITY.

Quality and confidence are built into everything we make, even our warranty. That's why off-road enthusiasts trust Can-Am accessories. It's a responsibility we take seriously, so you'll be pleased to know that genuine BRP parts, accessories and riding gear¹ are covered for an entire year² - no matter when they're purchased³. And if it's a BRP Partner aftermarket product and BRP or an authorized dealer sells it, it's also covered⁴! Add to that a 4-year limited warranty on helmets and it's clear: our commitment to quality and to you is rock solid.

In addition, our limited warranty comes with significant added value, because labor and collateral damage to the vehicle may be covered only if the failed part or accessory was installed by a BRP authorized dealer or distributor. We Back Only The Best - Which is why for generations you've trusted us to get you there, and you know you can trust us to keep you going.

PERFORMANCE & PERSONALITY.

Can-Am. It's power, performance, freedom and versatility driven by unrivalled quality and reliability. Can-Am can quench your thirst for adventure and help get things done. Nothing beats our huge range of customized accessories designed to get the most out of every thrill, every mile, and every job.

EXPERT PARTNERSHIPS DELIVER EXCITING PRODUCTS.

In 2017, Can-Am is making the most of its association with world-class partners. Together we'll be bringing the very best in side-by-side gear and accessories that'll make it a year to remember.

CGX2

CG360

CYCLOPSGEAR

CATCH ALL THE ACTION

It'll be easier, and more exciting than ever to catch all the action thanks to our new association with Cyclops Gear. When it comes to high-tech, high-action ultra-durable cameras, Cyclops Gear has it hands down.

We'll be putting their feature-packed CGX2 and CG360 cameras front and center – both ride on the cutting edge of innovative action cams, and together with Can-Am the results are going to be pure adrenaline.

RACING-INSPIRED EXCELLENCE THAT'S CUSTOM CAN-AM!

BRP and Lonestar Racing are teaming up to offer Can-Am side-by-side drivers an unparalleled range of distinctive racing-inspired performance accessories including several designed for the all-new Maverick X3.

It's an opportunity to get your hands on premium Commander, Maverick and Maverick X3 components that look great and ride tough: aluminum roofs, bumpers, intrusion bars and much more, all exclusively for Can-Am, available in matching Can-Am colors. It's going to be a win-win year for side-by-side drivers who ride on the edge!

STYLE & COMFORT RIDE SEAT!

Beard, among the leading aftermarket seat manufacturers, is offering exceptional seat packages for Can-Am side-by-side vehicles including an exclusive design engineered for the all-new Maverick X3 and available in 3 matching colors.

Sold in pairs, these innovative welded-steel frame seats are stylish and rugged. Designed to absorb impacts, they're 4-point-harness compatible, offering enhanced side containment that secures the occupant so that they can focus on their drive and not on staying balanced while maneuvering over rough terrain.

BRIGHT LIGHTS FOR MAVERICK X3!

Baja Designs engineers are considered to be the "Scientists of Lighting" in racing circles. They're the standard bearers for innovative motorcycle and automobile lighting, and a great option for your Can-Am vehicle as well.

Baja Design and Can-Am are in lockstep, ensuring our Maverick X3 benefit from superior lighting technology that looks great, and works flawlessly. It's clear: Baja Designs truly are lighting the way ahead.

THE ONLY WAY TO GET DOWN AND DIRTY!

Great partners are inspiring – like S3. In 2016 S3 has put its energy and passion for powersports into outstanding accessories for our Defender.

S3 understands, and that's why we're proud of our association with them. They're mad for mud and absolutely obsessed with creating high-quality, trail-tough, work-ready accessories that are practical, and practically indestructible. Time to hit the dirt!

DEFENDER-TOUGH PROTECTION ALL THE WAY!

Dragonfire is making quite a name for itself for its world-class off-road accessories. Tough and built to last, they're proof that Dragonfire has got the drive and determination to be a select Can-Am partner.

Dragonfire's exceptional range of customized body protection and convenience components are designed specifically for our Defender side-by-side vehicles, and they won't disappoint. And it's only the beginning, because Dragonfire never stops thinking, and we never stop giving them reasons to innovate and excel.

OUTLANDER RENEGADE

APACHE 360 TRACK SYSTEMS

- Highly engineered track system provides ultimate traction in snow and any other type of ground surface for your Can-Am vehicle.
- Front track design reduces vibration, eases turning and enhances performance in any hard packed conditions.
- The angled front lugs minimize resistance, and the way the lugs overlap over the wheels ensures smooth rolling.
- The rear track pattern and lug height are balanced for greater traction.
- Unique adjustable contact patch enables you to tackle the toughest conditions year round.
- This new system has two settings: the user can choose a better attack angle in rough terrain or greater flotation in deep snow.
- Thanks to the heightened rubber over molded heavy-duty double bearing wheels and offset wheel spacing, friction and vibration are reduced to a minimum while ensuring reliability.
- Easy installation and quick conversion from tires to tracks once the Apache 360 Mounting Kit is installed (sold separately).
- The DPS[®] module, included in the Apache 360 Mounting Kit, optimizes your Dynamic Power Steering (DPS) performance, maximizing steering agility at lower speeds while providing firmer steering at cruising speeds. It also provides a speed correction factor for the speedometer.
- EC compliant.

100% MODULAR. IT'S YOUR CAB, YOUR WAY.

Can-Am's got a wide selection of components, so if you feel like designing your own cab, your own way, our modular system can make it happen. This is flexibility and versatility at work for you. Simply pick the windshield (p.103), doors (p.107), rear window (p.110) and roof (p.98) of your choice, and you're off. Whatever you choose to build your cab with we guarantee the components will work together, because they were designed to work together.

BEST
YEAR-ROUND
TRACK
SYSTEM
ON THE MARKET

DEFENDER MAVERICK COMMANDER

APACHE 360 LT TRACK SYSTEM

- Highly engineered track system provides ultimate traction in snow and any other type of ground surface for your Can-Am vehicle.
- Front track design reduces vibration, eases turning and enhances performance in any hard packed conditions. The angled front lugs minimize resistance, and the way the lugs overlap over the wheels ensures smooth rolling. The rear track pattern and lug height are balanced for greater traction.
- Unique adjustable contact patch enables you to tackle the toughest conditions year round. This new system has two settings: the user can choose a better attack angle in rough terrain or greater flotation in deep snow.
- Thanks to the heightened rubber over molded heavy-duty double bearing wheels and offset wheel spacing, friction and vibration are reduced to a minimum while ensuring reliability.
- Easy installation and quick conversion from tires to tracks once the Apache 360 LT Mounting Kit is installed (sold separately).
- The DPS module, included in the Apache 360 LT Mounting Kit, optimizes your Dynamic Power Steering (DPS) performance, maximizing steering agility at lower speeds while providing firmer steering at cruising speeds. It also provides a speed correction factor for the speedometer.
- Heavy-duty components ensure reliability and the design offers excellent acceleration, turning, braking and side-hilling performance.
- Larger contact patch than the Apache 360 Track System by 15 in² (97 cm²) at front and 41 in² (265 cm²) at back.
- Higher ground clearance than the Apache 360 Track System by 3/4" front and 1.25" rear.
- Higher rear angle of attack.
- Apache 360 LT Mounting Kit is required.
- EC compliant.

CROSS HELMETS*

For warmer riding conditions and more active riding, you might want to opt for a cross helmet with goggles. In highly active riding where you will be sweating and breathing hard, goggles are the best solution for clear vision, and the extra open area will keep you from overheating.

WHAT'S UNDER THE SHELL COUNTS

To keep warm, you've got to keep dry. Our technical base and mid layers wick perspiration away from your skin, where it can evaporate quickly for all-day warmth.

HOW IT WORKS

Each layer has a function. You get the best performance and versatility when you dress in a system with base layer, mid layer and outer layer.

OUTER LAYER

Keeps wind and water out. Adds insulation for warmth.

MID LAYER

Dials in your warmth level. Add or remove during the day as conditions change.

BASE LAYER

Close to the body to wick perspiration and prevent chills. Adds warmth. Avoid cotton — it gets wet and stays wet.

TECHNICAL FIBERS

X-STATIC
X-STATIC eliminates 99.9% of bacteria to prevent odors.

MERINO WOOL
Excellent at regulating body temperature, even when damp.

COCONUT FIBER
Natural material increases breathability by 40%.

BASE LAYER

MEN'S ACTIVE BASE LAYER

- X-STATIC[®] enhanced through to the fiber to thermodynamically regulate your temperature by conducting body heat out in warm weather and reflecting body heat back to the skin in cold weather.
 - Permanently treated for long-lasting antibacterial performance undiminished even after 250 washes.
 - Silver woven into fiber immediately binds with odor-causing agents such as ammonia and denatured proteins to instantly reduce odor.
 - Mesh panels in specific areas for better ventilation and accelerated drying.
 - Compressed for added comfort.
- 92% Polyester, 6% Spandex, 2% X-STATIC[®]

HOW TO MEASURE

- For best results, have someone else take measurements.
- Measure body in underwear.
- Tape must be snug but not tight.
- If measurements fall between two sizes, order the larger size.

Chest/Bust: Measure under your arms, around the fullest part of your chest.

Waist: Measure around your natural waistline, keeping one finger between the tape and body.

Gloves: Measure palm width.

Inseam: Without shoes, from crotch to the floor.

Arm length: Hand on hip, from center back neck bone, along shoulder point round elbow to bottom of wrist bone.

Head: Around your head, from the center of the forehead, above the ears and over the natural bump at the back of the head.

WHAT CODE REPRESENTS YOUR SIZE?

1. Find your size.
2. The corresponding code is **THE CODE** you use to complete the part number on your order.
Example: 440227__90 Size: M = Code "06", therefore 4402270690

DRIVE BELTS

The drive belt is an integral part of your off-road vehicle's transmission and its importance for achieving its maximum performance can't be overstated. All the tuning or changes made in gearing, weights, ramps and springs in the world don't matter if the belt can't consistently maintain its performance.

SO, WHAT MAKES A BELT STAND OUT?

You see that several elements include "Aramid." Aramid is a man-made fiber resistant to heat and abrasion. It is used to add strength and long life to the rubber belt. Aramid fibers and fabrics are common in belts.

- ▶ Top Cog with Special Aramid Fiber
- ▶ Adhesion Rubber
- ▶ Specialized High Modulus Aramid Cord
- ▶ Compressive Rubber with High Modulus PBO Fiber
- ▶ Bottom Cog With Aramid Fabric

USE THE RIGHT BELT

Just as we calibrate our clutches and gearing to deliver the best possible performance for how a vehicle is ridden, we specialize the belt for the application, too.

Different types of riding create different heat and load conditions our engineers must account for. For instance, higher drivetrain loads, like on Maverick X ds Turbo, going through the dunes on the throttle hard for extended periods of time, generally require belts with a stiff construction and high heat resistance. A utility vehicle pulling equipment or heavily loaded sees high drivetrain loads too, but the clutch calibrations, engine RPM, vehicle speed and environment differ significantly – so will the required belt.

This is why it's best to match the exact model and year of your BRP vehicle to the replacement belt. And even though BRP belts might have the same width and length dimensions, the difference in the materials delivers the best performance and longevity for your vehicle's application and calibrations.

USING THE RIGHT OIL MATTERS

The right oil delivers:

THE BEST PERFORMANCE
THE BEST RELIABILITY
THE LONGEST LIFE

It's a balancing act to deliver all three attributes – and only XPS, with its custom blend formulations and carefully matched additives, is specifically designed to do just that in a Rotax engine.

“The best oil is the oil that was specifically designed for the engine, without compromising the engine.”

Mischa Zimmermann
Project Leader Engine Development, BRP

DOES ONE OIL FIT ALL?

Our efficient, high-output engines place strong demands on engine oil. At BRP, we treat oil like an actual mechanical part that is developed concurrent with our latest high-performance engine technology.

XPS 4-STROKE OILS

Fact: XPS 4-stroke oils are BRP engineer-certified for unmatched lubrication, the right characteristics for our wet clutches, the right viscosities to best protect our engines from startup to operating temperatures, and they all have extra corrosion protection to better protect your engine.

WHY CHOOSE XPS 4-STROKE ENGINE OILS INSTEAD OF LOWER-COST ALTERNATIVES?

BRP engineers and experts like Mischa Zimmermann have proven repeatedly that other brands of oil don't meet the high standards BRP desires for engines like the Rotax 4-Tec 1000 Turbo.

- Each vehicle manufacturer establishes their own lubrication standards and test criteria to validate OEM oil – this means XPS achieves a much higher standard.
- Even oil that is more expensive than XPS will not have the same custom-matched performance for Rotax engines.
- Our oil is tested on the whole lineup of vehicles and engines we manufacture – not just one or two models. Our specific testing includes real world test miles to ensure XPS meets our performance requirements as opposed to relying only on generalized, minimum specifications that most aftermarket oil brands use.

AREN'T THERE OTHER HIGH QUALITY OILS ON THE MARKET?

Yes. But no other oil is designed as an actual mechanical part during engine development like XPS. Your satisfaction matters.

XPS CLEANERS

XPS SPRAY CLEANER & POLISH

- Removes dirt, grease, road grime and water marks easily and quickly.
- Non petroleum based formula will not harm plastic finishes.
- 12 oz. (340 g).

219702844

XPS BRAKES & PARTS CLEANER

- A concentrated blend of solvents with a powerful blasting spray that effectively removes grease, grime, brake fluid and other contaminants from brake components and metal parts without the need for disassembly.
- Evaporates instantly and completely, leaving no residue to hinder performance.
- Contains no ozone depleters.
- 14 oz. (400 g).

219701776

XPS OFF-ROAD VEHICLE WASH

- A biodegradable non-toxic cleaner that removes mud and dried-on dirt from your off-road vehicle.
- Whether grimy from the track, the woods or the fields, this cleaner will leave your off-road vehicle sparkling.
- When used as directed, XPS Wash is safe for all off-road vehicle finishes.
- 32 oz. (946 ml).

XPS MICROFIBER TOWELS

- The latest in high-quality detailing towels.
- Made up of extremely fine fibers, their soft surfaces have been perfected for drying and polishing painted, gel coated and hard shiny surfaces.
- They are so absorbent they hold up to 7 times their weight in water.
- Machine washable means they can be used over and over again.
- Pack of 2.

XPS MAINTENANCE PRODUCTS

XPS SYNTHETIC GEAR OIL

- Exceeds API GL-5 specs and provides extra protection for a wide range of differential types.
- Formulated for extended drain intervals.
- Additional friction modifiers make it ideal for clutch-type limited slip differentials.
- Allows for higher load capacity, while providing better shear stability, and less oxidation than other synthetic or conventional gear oils.
- Superior thermal stability and relatively constant viscosity help fight wear and provide enhanced extreme-temperature performance.

XPS CARBON FREE

- XPS Carbon Free prevents problems inherent in Ethanol-blended fuels.
- Extends storage life of fuel up to 12 months.
- Cleans fuel system while preventing corrosion and oxidation.
- Helps keep piston rings, valves and combustion chamber carbon-free to prevent difficult starting and restore peak performance.

219702533

XPS FUEL STABILIZER

- Extends fuel life by preventing fuel breakdown during storage.
- Helps prevent difficult starting, throttle hesitation and poor performance.
- Anti-corrosive, anti-oxidant formula protects fuel system and engine.
- Prevents problems inherent in Ethanol-blended fuels.

XPS SYNTHETIC SUPENSION GREASE

- Provides optimal lubrication at temperature extremes.
- Protects against external contamination.
- Specifically formulated for use in Can-Am off-road vehicles.
- Allows suspensions to perform regardless of conditions.
- 14 oz. (400 g).

293550033

XPS DOT 4 BRAKE FLUID

- Exceeds D.O.T 3 and 4 requirements.
- Unique low-moisture formulation providing maximum protection against vapor lock.
- Recommended in Can-Am off-road vehicles.

293600131

XPS PRE-MIXED ANTIFREEZE/COOLANT

- Pre-mixed, ready-to-use.
- Exceptional 5-year extended service life.
- Provides superior heat transfer, protection against corrosion and cavitation.
- Specifically formulated for use in your Can-Am vehicle.
- Ideal as a replacement coolant in vehicles that usually use 2-year antifreeze/coolant (green).

XPS LUBE

- A multipurpose lubricant that prevents rust, corrosion and moisture intrusion.
- Contains active extreme-pressure additives which provide excellent lubrication and antiwear properties.
- Comes in a spray that works upside down.
- 14 oz. (400 g).

MORE THAN JUST OIL.

XPS OILS AND ROTAX ENGINES. CREATED, DEVELOPED, AND CONSTANTLY EVOLVING TOGETHER TO WORK BEST TOGETHER.

It's all about reaching optimum performance and protection, ensuring XPS oils have no equals when used in Rotax engines, and Rotax engines have no equals when they use XPS oils.

QUALITY, INNOVATION, RELIABILITY AND PERFORMANCE GO INTO EVERY BRP VEHICLE AND INTO EVERY DROP OF XPS OIL.

Our performance requirements exceed oil certification standards, so we set our own: Testing, and retesting our oils in every Rotax engine type under a wide range of rigorous operating conditions to make sure they work the best under all conditions.

XPS IS THE ONLY OIL SPECIFICALLY ENGINEERED FOR ROTAX ENGINES.

BRP's Rotax engines are the perfect embodiment of power and technology, and only highly specialized, specially engineered XPS oils can ensure they always operate at their maximum efficiency and potential.
